

MYP Maths

The International Maths for the Middle Years textbook series has now been mapped to the 2014 MYP Mathematics Guide. With 98% of topics and 91% of skills from the framework covered, you can be confident that our textbooks meet the needs of your students.

The mapping document is an Excel file containing the following tabs:

- Key concepts
- Related concepts
- Global contexts
- Number topics
- Number skills
- Algebra topics
- Algebra skills
- Geometry and trigonometry topics
- Geometry and trigonometry skills
- Statistics and probability topics
- Statistics and probability skills

Within each tab you will find a list of units from each of the International Maths for the Middle Years textbooks that match to that particular requirement.
